PROSPECTUS OF THE NEW LIBRARY
OF LAW AND EQUITY, under the direction of Francis J. Troubat, eq., of Philadelphia;
Hon. Ellis Lewis, of Lancaster; and Wilson McGandless, saq., of Pittsburgh.
This work contains the best productions of Engish law authors, without reserved to priority of chi-

tion of Francis J. Troubat, eeq., of Philadelphia; Hon. Ellis Lewis, of Lancaster; and Wulson Mc-Candless, saq., of Pittsburgh.

This work contains the best productions of English law authors, without regard to priority of claim on the part of any American publisher. Such books are now notoriously too dear. The reason is, that as fast as they appear, they become monopolies in the hands of booksellers in the Atlantic citres. Under the plea of right, sequired by the addition of notes of American decisions, the latter claim an undivided title to those works, and set a burdensome price on them. The publishers of the work new offered to the profession throughout the Union, will not respect such titles, but will reprint the standard British law books as fast as they emanate from the London market. Should new editions of the works of such writers as Starkie, the Chittys, Stephen, and Archbold, appear, they shall also be included; and digests of equity and law decisions—works which have been sudiously kept out of the Law Library published at Philadelphis—shall have a place in the proposed new one, together with every new valuable English treatise on chancery or common law.

new valuable English treatise on chancery or comnon law.

It This work will be issued monthly, in numnews of 160 pages, printed on fine white paper, and
noond new long primer type, at seven dollars per annum, psyable half yearly.

THIS preparation is particularly recommen persons of weak habit, and to such as re-Persons of weak habit, and to such as reside in low situations, where the nervous system is, in general, more or less relaxed. The addition of certain ingredients has so completely disguised the taste of the bark, as to render this efficacious remedy, a most palatable cordisal; thus peculiarly adapting it to conquer that repugnance which most persons experience after taking for some time bitter potions, as it combines the greatest efficacy with a highly agreeable flavor. As a preventive of the ague it has superseded the use of all other remedies, in such parts of the country as it is known. Prepared only by J. Milhau, No. 183 Broadway, New York. DR. DYOTT'S ANTI-BILIOUS PFILLS.

A S a family medicine, a mild and gentle purgative, and purifier of the blood. The general use of these celebrated pills throughout the United States for these forty years past, and the strong recommendations they have acquired from all classes of our fellow-citizens, places them in a much more elevated situation in public estimation, than any other remedy which has heretofore been introduced. The following are among the many diseases for which Dr. Dyott's celebrated pills are so deservedly distinguished for curing. By their counteracting properties in removing the bille from the stomach, they prevent and cure the billious fever; chills, or ague and fever; spring and fall fevers; yellow fever; bilious cholic; pleurisy; dysentery; worms; bilious vomiting; sick and foul stomach.

By cleansing the bowels and stomach from all impurities, they restore the loss of appetite, remove flattlency, cure the headache, habitual contiveness, colds, coughs, asthma, epileptic fits, hypochondrias, hysterical complaints, stanguary, gravel, &c.

By a general and copious use, they will be found very beneficial in curing the rheumatism and gout, lumburgo or pains in the blood, yield to their happy effects, whether proceeding from constitutional all-ment, or from indiscreet intemperance.

These celebrated pills have been used to very great advantage in curing the dyspepsin, or indigestion, bronchitis, liver complaint, &c.

They are an infallible medicine for female complaints generally, and especially for removing those obstructions which are the source of their aliments at certain periods; they possess the eminent advantage over most other purgatives, that, while they operate gendly, they produce neither considerates, debility, or too great excitement.

Whenever there is a predisposition to receive disease from marsh effluvia, or from a too copious use of ardent sprints, or from a vitanted state of the bilic, these pills will assuredly counteract it.

They are highly recommende DR. DYOTT'S ANTI-BILIOUS PILLS.
